

Spectral Theory in Inner Product Spaces and Applications

Filesize: 9.72 MB

Reviews

*A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
(Matilda Hoeger V)*

SPECTRAL THEORY IN INNER PRODUCT SPACES AND APPLICATIONS

Springer Basel AG Nov 2008, 2008. Buch. Book Condition: Neu. 27.9x21x cm. Neuware - This volume contains papers written by participants of the 6th Workshop on - erator Theory in Krein Spaces and Operator Polynomials, which was held at the Technische Universit at Berlin, Germany, December 14 to 17, 2006. This workshop was attended by 67 participants from 14 countries. The lectures covered topics from spectral and perturbation theory of linear operators in inner product spaces and from operator polynomials. They included the theory of generalized Nevanlinna and Schur functions, differential operators, singular perturbations, de Branges spaces, scattering problems, block numerical ranges, nonnegative matrices and relations. All these topics are re ected in the present volume. Besides, it contains an after dinner speech from an earlier wo- shop, which we think may be of interest for the reader, as well as a speech on the occasion of the retirement of Peter Jonas. It is a pleasure to acknowledge the substantial nancial support received from the Deutsche Forschungsgemeinschaft (DFG), Berlin Mathematical School (BMS), DFG-Forschungszentrum MATHEON Mathematik fur Schlus- sel- technologien , Institute of Mathematics of the Technische Universit at Berlin. WewouldalsoliketothankPetraGrimbergerforhergreathelpintheorganisation. Without her assistance the workshop might not have taken place. 250 pp. Englisch.
