

Bright Stars, Bright Universe: Advancing Civilization by Colonization of the Solar System and the Stars Using a Fast Quark Drive

Filesize: 8.36 MB

Reviews

I actually began reading this article pdf. It really is filled with wisdom and knowledge You wont sense monotony at at any time of the time (that's what catalogues are for concerning should you request me).

BRIGHT STARS, BRIGHT UNIVERSE: ADVANCING CIVILIZATION BY COLONIZATION OF THE SOLAR SYSTEM AND THE STARS USING A FAST QUARK DRIVE

To read **Bright Stars, Bright Universe: Advancing Civilization by Colonization of the Solar System and the Stars Using a Fast Quark Drive** eBook, remember to refer to the web link below and save the ebook or gain access to additional information which might be highly relevant to BRIGHT STARS, BRIGHT UNIVERSE: ADVANCING CIVILIZATION BY COLONIZATION OF THE SOLAR SYSTEM AND THE STARS USING A FAST QUARK DRIVE ebook.

Pingree-Hill Publishing. Paperback. Book Condition: New. Paperback. 80 pages. Dimensions: 9.1in. x 6.0in. x 0.2in. The contents of the book: **Bright Stars, Bright Universe: Advancing Civilization by Colonization of the Solar System and the Stars using a Fast Quark Drive** include: 1. A description of the current state of the earth showing that an unavoidable decline in human civilization is inevitable without a major reduction in population and a major initiative to explore and colonize the Solar system. 2. A description of the major features of travel to other stars (and galaxies) at speeds such as 5, 000c (5, 000 times the speed of light) and 30, 000c. We show that there is no limit to starship speeds so speeds of 1, 000, 000c, and above, are possible to travel to other galaxies. 3. A step by step program for space exploration and colonization (differing from other, short-range proposals) that is the most practical and cost effective approach to large-scale colonization of other planets and moons. 4. A description of the major features of faster-than-light travel and a new mechanism to break the light speed barrier that does not require a massive amount of resources that is beyond the capabilities of our current civilization. 5. The mechanism will be based on a quark drive using accelerated quark-gluon plasma rings to propel the starship. Quarks have complex spatial momentum in Blahas theory of the Standard Model and thus can give a starship a complex thrust (and thereby a complex acceleration and velocity) that will enable it to go around the speed of light which is a real number. The quark-gluon plasma rings will be generated by creating macroscopic amounts of quark-gluon plasma via the high energy collision of heavy ions such as U238 atoms. Current circular accelerators are creating quark-gluon plasmas in...
