Createspace, United States, 2014. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book ***** Print on Demand *****.This is a radio comedy script in ten episodes of around 15 minutes each. Deals in Space! is an adaptation of William Peskett s novel, Enhance Your Exports! Doing Business on Other Planets. The story follows Dave Smart, business studies lecturer, as he leads three enytrepreneurs on a tour of discovery to the Smiling Disc star system, 19 light years from home. Their purpose is to investigate business practice on Kalista-mm, the larger of the system s two planets. Visits to a sulphur mine, an old-established bank and a drinks company give the Earthlings surprising insights into the business practices of aliens who have developed along somewhat different lines from us. It s not only that they have big moustaches and white blood, or that they drink sulphuric acid and lay eggs. The inhabitants of Kalista-mm are the epitome of political incorrectness, and are disarmingly honest about their shortcomings. Of course, the main benefit of studying a way of life very different from ours is that it teaches us more about ourselves. The group s observations provide plenty of scope for taking cruel swipes at many of things we hold precious about our own dear planet: government, big business, justice, democracy, climate change, science, religion and do-gooders generally. It all adds up to a hilarious jaunt around a little-known quadrant of the galaxy and a satisfying dig at many of our own sacred cows. The series involves 38 characters with 8-14 in each individual episode. There are six main speaking parts with the others of varied importance. Many characters have optional gender.
